

LETTER OF EXPERIENCE

BioLuster Research Center Ltd.
Gopalganj 8100, Dhaka, Bangladesh
Website: www.blrcl.org
Email: support@blrcl.org

To Whom It May Concern,

This is to certify that Priyanka Paul (BLRCL Researcher ID: BLRCR271) worked as a Research Collaborator at BioLuster Research Center Ltd. (BLRCL) from 10 June 2022 to 10 July 2023 (Profile: <https://www.blrcl.org/Priyanka-Paul/>).

During her tenure, she has been actively involved in preclinical study investigations, manuscript writing, and preparation of scientific articles for publication. Her contributions reflect strong analytical skills and a deep commitment to advancing research in alignment with her academic background and scientific interests.

Ms. Paul completed her B.Sc. and M.Sc. in Biochemistry and Molecular Biology from Gopalganj Science and Technology University, Gopalganj-8105, Bangladesh. Her research interests focus on understanding the molecular mechanisms of human cancers (particularly liver and breast cancer), DNA metabolism processes, and the development of target-specific novel therapeutics.

Her research involvement at BLRCL includes the following project:

A) Uncovering the efficacy of *Cinnamomum tamala* leaf extract against paracetamol-induced hepatotoxicity in Swiss albino mice.

In addition to her research contributions, Ms. Paul has received notable recognition by scientists..

Throughout her service period, she has demonstrated professionalism, responsibility, and dedication to her research work. Her ability to engage in scientific inquiry and contribute meaningfully to collaborative research projects makes her a valuable asset to any academic or research environment.

Based on her performance, professionalism, and dedication, we consider Ms. Paul a highly promising researcher. We strongly recommend her for opportunities that align with her expertise and aspirations.

We wish her every success in her future academic and research endeavors

Sincerely,

Md. Torequl Islam, PhD
